Objective

Obtain a position in the web industry as a front-end developer.

Profile

My expertise lies in front end development technologies including HTML5, CSS3 and JavaScript. I strive to expand my knowledge on the web and consistently push myself to higher standards.

Experience

Web Developer, LoSasso Integrated Marketing Ravenswood, IL — May 2016 - Present

- Proficient work with front-end web development technologies – XHTML, HTML5, CSS3, JavaScript, and JavaScript-based libraries.
- Intermediate work with back-end web development – LAMP stack (Linux, Apache, MySQL, PHP)
- Develop responsive emails and websites using Bootstrap and other responsive frameworks.
- Demonstrate ability to write clear code, well-commented, free of errors and easy to maintain.

Web Front-End Developer, WebToMed Schaumburg, IL — March 2013 - April 2016

- Developed mobile-friendly, responsive websites and user interfaces.
- Sliced PSDs into W3C Validated HTML5/CSS3 templates.
- Handled all HTML email templates and newsletters.

Education

The Illinois Institute of Art-Schaumburg B.F.A Web Design & Interactive Media — 2008 - 2011
